POWERED BY A  
HIGH-QUALITY  
AMERICAN  
HYDRAULIC MOTOR

PROTECTIVE  
GUARDING TO  
SHIELD THE  
OPERATOR AND  
CAB GLASS

HEAVY-DUTY, ALL-WELDED  
DESIGN FOR MAXIMUM  
DURABILITY

FOLD-AWAY BOOM  
FOR EASY ROAD  
TRANSPORT

BREAKAWAY PIVOT TO  
PROTECT BOTH MACHINE  
AND INFRASTRUCTURE

EUROHITCH MOUNTED  
FOR EASY ATTACHMENT  
TO TRACTORS

Designed, tested, and built in Hawke's Bay with insights from dairy industry professionals, the Lanerotr R1 streamlines farm laneway maintenance by efficiently removing edge buildup, improving drainage, and reducing herd lameness.

Ideal for farmers and contractors, this robust machine operates at 1.5 km/h, clearing up to 5 km of laneway edges in a single day with one operator. With a simple 5-minute setup, the Lanerotr R1 fits seamlessly into your work schedule, allowing you to perform lane maintenance alongside other tasks, saving both time and effort.

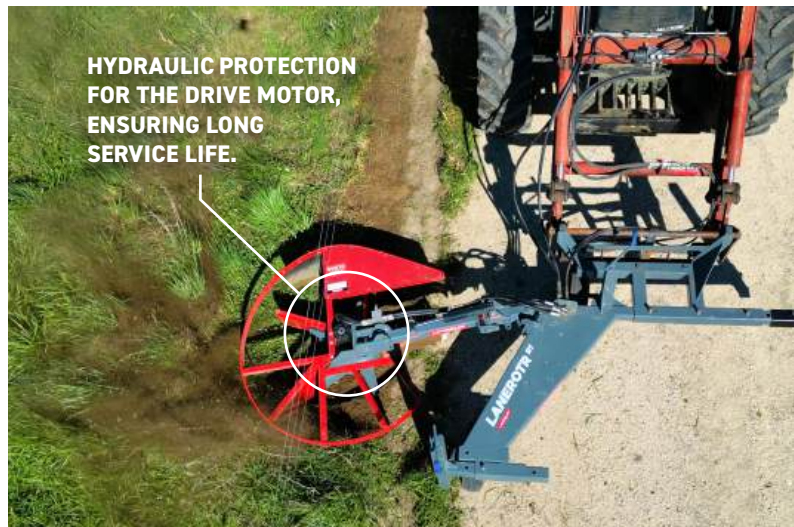

## **STREAMLINE FARM TRACK UPKEEP WITH FASTER LANE MAINTENANCE**

# LANEROTR R1

The Lanerotr R1 comes equipped with a standard Eurohitch mount, operates at a speed of 1.5 km/h, and requires a hydraulic flow of 50L/m. Setup is simple and quick, needing just two hoses connected to the rear hydraulics and two hoses to the front loader service hydraulics, allowing for full setup in just five minutes.

# DESIGN AND DEVELOPMENT

Developed with dairy farmers in mind, the Lanerotr R1 has undergone extensive testing and refinement in real-world conditions. Landquip collaborated closely with a local dairy farmer and machinery operator in Patoka, Hawke's Bay, to create a machine that delivers 90% effective laneway edge management, while remaining simple to use.

With design IP protection in both New Zealand and Australia, the Lanerotr R1 offers the ultimate solution for farm track maintenance, enhancing efficiency and reducing downtime.

# LANEROTR <sup>R1</sup>

After extensive consultation with experienced farmers and other industry professionals, combined with nearly 40 years of invaluable engineering expertise, Landquip has elevated its livestock equipment to a whole new level. We continue to develop and create robust, quality machinery that ensures a dependable future for those who invest in our products.
